

CORPORATE BACKGROUND

Jacqrin Systems Solutions (Pty) Ltd was founded by Jacques Kruger in 2005. Jacqrin started with 3 productive and 1 support staff, working on software implementation and support projects to customers in the defence industry. The company also maintains and support critical analytical operational processes for municipal government organisations.

By end 2006 the company started with Business, Financial and IT support to smaller and upcoming businesses. This includes supplying PC Hardware, Software and Network support services. Business knowledge transfer and streamlining of business processes formed part of the support to these companies.

Jacqrin joined the Novitium Association of Companies in 2006. The Novitium Association is a single-contact, dynamic and innovative ICT solutions provider of affordable business- and process optimisation services. It is aimed at empowering the client to become more efficient, proactive and profitable. These services are provided at all levels to meet the client's requirements.

The Novitium Association was established through the close cooperation of the following companies:

- Novitium Technologies (Pty) Ltd
- Novitium Q-Sulting (Pty) Ltd
- Trentech System Engineering (Pty) Ltd
- Novidatum (Pty) Ltd
- Jacqrin Systems Solutions (Pty) Ltd

To become a leader in the field of support on business and process optimisation solutions.

MISSION

To provide cost-effective, end-to-end solutions for business and process optimisation that will enable our clients to be more efficient and profitable.

CORPORATE OVERVIEW

JACQUES KRUGER

Position: Specialist Consultant and Director.

Jacques has a B.Com. (Information Systems) degree obtained from the University of South Africa. He attended training courses in Programming Languages, Database Architecture & Design, Business Systems (Enterprise Resource Planning), Process Management, Project Management and Financial Management.

Jacques started his career in 1988 at ABSA Bank (then Volkskas Bank) as a clerk in the General Ledger department. He was later transferred to the Information Technology department of the bank, followed by an appointment as Head Operator for Midrange Systems and Senior Operator for Mainframe Systems. He subsequently moved to the Programming Department where he worked for 2½ years, the last year as a Senior Programmer.

In 1994 he was employed by Northwest Star (then Northwest Transport Investments) as a Developer on an in-house Transport Control System development project. He was later promoted to Systems Manager, accounting for two departments consisting of 10 people. In 1998 he was appointed by Q-Data as a Qmuzik Consultant where he participated in Project Management, Implementation and Support functions on various ERP projects.

In 2000 he co-founded Novitium CC (A New Beginning) where he acted as Managing Partner. Jacques's motto "Nothing is impossible" has formed the cornerstone of a very successful business career. He explores challenging avenues and as a result became a founder member of various investment business ventures.

Jacques and his wife Karin has two children and currently lives in Pretoria, the Administrative Capital of South Africa. They enjoy fly-fishing, camping and disappearing into the bush on hiking and exploring activities. The family actively supports the programs at the Paul Kruger Children's home and out-reach projects initiated by the Christian Reformed Churches of South Africa.
